---------------------------------------------------------------------------------	--

flags, and the payment of High School tuitions	\$6,580.00
Estimate of \$3.50 tax on 1921 inventory	1,855.00
Estimate of additional sums needed	4,725.00
(b) For the payment of the per capita tax (statutory)	250.00

SUPERINTENDENT'S REPORT

To the School Board of Warren:

It is with pleasure that I submit the following brief report for the past year, for while everything that I would like to have done in the schools has not been done I feel that the year has been one of progress.

The attendance last year was badly interrupted in most of the schools owing to sickness and extreme weather. The aggregate loss of time was large and could not fail to affect the year's work. There were two pupils who maintained a perfect attendance record for last year. These were Evelyn Hildreth, and Cora Flanders. The attendance as a whole has been much better thus far this year.

Standard Mental Tests have been given this year to the children in grades IV and VIII inclusive. The results are gratifying, the average scores by grades for the district being but slightly below the tentative standards determined by tests on the school children of Washington, D. C. Compared with the standards determined for the various grades the sixth grade got the best average score, which was higher than the Washington average for that grade. The fifth grade score was approximately the same as the Washington score. The only grade whose score was not satisfactory when compared with the standard was the seventh, several pupils securing unusually low marks thus bringing down the average for the whole grade. When

we consider that the children in Washington have a longer school year than ours and a superior school system, the scores are satisfactory indeed. It would seem that the only way to account for so good a showing is to say that our children have a better native ability than city children. During the balance of the year standard tests in spelling, writing, silent reading, and arithmetic are to be given. By this means I hope to avoid haphazard judgment of progress, and find how our schools and children compare with others.

The medical inspection done last year by Dr. Fraser was satisfactorily done and a number of children have had teeth or eyes attended to since. I think that the nurse this year by talking with parents concerning their children will be able to get more done than a physician who simply sends a notice to the parents.

The school buildings have been much improved during the past year by changes in lighting, seating, color of walls and ceilings, and other general repairs, thus making them more satisfactory and hygienic. The toilets at the village are unsatisfactory for so large a number of pupils. Probably the only feasible way to make them sanitary and decent would be to install sanitary chemical closets. The expense of this would probably be \$300.00 to \$400.00.

The matter of teachers wages for next year is uncertain. There is still a shortage of teachers and with the standards of requirement for teachers constantly being raised I do not anticipate any lower wages at present.

I wish to thank teachers, school board, and citizens, for their support and cooperation.

Respectfully submitted,

CARL T. RHOADES,

Supt. of Schools.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Warren:

It is with pleasure that I submit the following report.

All of the six teachers now employed in this district attended the Plymouth Summer School the past summer and I feel that much was gained in this way. Two of the teachers are new to this district but both are teachers of experience and are doing good work in their schools. I feel that the teaching as a whole is better than it has been during the previous years that I have been connected with the schools of this district.

During the past few years considerable in the way of new equipment, up-to-date supplies and text books have been purchased. These with standardized tests and exercises enable the teachers to do more efficient work and assist us in the proper grading and promotion of pupils.

The attendance for the past year averaged 90% of the membership, which was 5% better than for the previous year. This year the attendance as a whole has been good, though there has been considerable sickness during the past few weeks, and I am confident that the average for the year will be better than for last year.

The school buildings as a whole are in good condition. The worst condition is at the village; the toilets being very unsatisfactory for so large a number of pupils. There is practically no playground at Ore Hill or Glencliff except the public highway. At East Warren there is a chance for a playground but it needs grading.

Improvement of schools can not be brought about by a revolution or too radical changes, but by striving each successive year for better teaching, better attendance, better buildings, and higher standards of scholarship. *Good Schools are Everybody's Business.* I wish more parents would visit the schools. I assure you the teachers will welcome you and be glad to discuss your children's work with you.

Respectfully submitted,

CARL T. RHOADES,

Wentworth, N. H., Feb. 19, 1922.
